REV 2026.05.25

Bracketed wordmark [BRKT]

Square brackets enclose the XVN wordmark. Reads as code, as array, as a citation — containerises the mark so it sits cleanly in dense UI rows and operator-style chrome.

LOCKUP	ASPECT
48 × 14	24 : 7
WORDMARK	TRACKING
Geist Mono 700	0.14em
BRACKET STROKE	SMALLEST SIZE
1.4 px	14 px height
MARK COLOR	WORDMARK COLOR
Signal #00E676	currentColor

DO		DON'T	
 Use the primary lockup on Carbon (#050505) for all in-product chrome.	 Swap brackets to Signal Deep (#00B85F) on light backgrounds for legibility.	 Don't rotate the lockup. The brackets are horizontal anchors.	 Don't stretch or change the bracket-to-wordmark spacing.
 Use the all-green mono variant for stencils, stamps, and reversed-out chips.	 Use the all-white variant when sitting next to vibrant chart colors that would clash with green.	 Don't recolor the brackets outside the Signal family.	 Don't swap typeface. Geist Mono 700 / 0.14em tracking is locked.
